

8.405-3

48 CFR Ch. 1 (10-1-06 Edition)

- (ii) A performance-based order.

[69 FR 34234, June 18, 2004, as amended at 70 FR 43579, July 27, 2005]

8.405-3 Blanket purchase agreements (BPAs).

(a)(1) *Establishment.* Ordering activities may establish BPAs under any schedule contract to fill repetitive needs for supplies or services. BPAs may be established with one or more schedule contractors. The number of BPAs to be established is within the discretion of the ordering activity establishing the BPAs and should be based on a strategy that is expected to maximize the effectiveness of the BPA(s). In determining how many BPAs to establish, consider—

- (i) The scope and complexity of the requirement(s);
- (ii) The need to periodically compare multiple technical approaches or prices;
- (iii) The administrative costs of BPAs; and
- (iv) The technical qualifications of the schedule contractor(s).

(2) Establishment of a single BPA, or multiple BPAs, shall be made using the same procedures outlined in 8.405-1 or 8.405-2. BPAs shall address the frequency of ordering, invoicing, discounts, requirements (e.g. estimated quantities, work to be performed), delivery locations, and time.

(3) When establishing multiple BPAs, the ordering activity shall specify the procedures for placing orders under the BPAs.

(4) Establishment of a multi-agency BPA against a Federal Supply Schedule contract is permitted if the multi-agency BPA identifies the participating agencies and their estimated requirements at the time the BPA is established.

(b) *Ordering from BPAs—*(1) *Single BPA.* If the ordering activity establishes one BPA, authorized users may place the order directly under the established BPA when the need for the supply or service arises.

(2) *Multiple BPAs.* If the ordering activity establishes multiple BPAs, before placing an order exceeding the micro-purchase threshold, the ordering activity shall—

(i) Forward the requirement, or statement of work and the evaluation criteria, to an appropriate number of BPA holders, as established in the BPA ordering procedures; and

(ii) Evaluate the responses received, make a best value determination (see 8.404(d)), and place the order with the BPA holder that represents the best value.

(3) *BPAs for hourly rate services.* If the BPA is for hourly rate services, the ordering activity shall develop a statement of work for requirements covered by the BPA. All orders under the BPA shall specify a price for the performance of the tasks identified in the statement of work.

(c) *Duration of BPAs.* BPAs generally should not exceed five years in length, but may do so to meet program requirements. Contractors may be awarded BPAs that extend beyond the current term of their GSA Schedule contract, so long as there are option periods in their GSA Schedule contract that, if exercised, will cover the BPA's period of performance.

(d) *Review of BPAs.* (1) The ordering activity that established the BPA shall review it at least once a year to determine whether—

(i) The schedule contract, upon which the BPA was established, is still in effect;

(ii) The BPA still represents the best value (see 8.404(d)); and

(iii) Estimated quantities/amounts have been exceeded and additional price reductions can be obtained.

(2) The ordering activity shall document the results of its review.

[69 FR 34234, June 18, 2004, as amended at 70 FR 43579, July 27, 2005]

8.405-4 Price reductions.

In addition to seeking price reductions before placing an order exceeding the maximum order threshold (see 8.405-1(d)), or in conjunction with the annual BPA review, there may be other reasons to request a price reduction. For example, ordering activities should seek a price reduction when the supply or service is available elsewhere at a lower price, or when establishing a BPA to fill recurring requirements. The potential volume of orders under

Federal Acquisition Regulation

8.405-6

BPA's, regardless of the size of individual orders, offers the opportunity to secure greater discounts. Schedule contractors are not required to pass on to all schedule users a price reduction extended only to an individual ordering activity for a specific order.

8.405-5 Small business.

(a) Although the mandatory preference programs of Part 19 do not apply, orders placed against schedule contracts may be credited toward the ordering activity's small business goals. For purposes of reporting an order placed with a small business schedule contractor, an ordering agency may only take credit if the awardee meets a size standard that corresponds to the work performed. Ordering activities should rely on the small business representations made by schedule contractors at the contract level.

(b) Ordering activities may consider socio-economic status when identifying contractor(s) for consideration or competition for award of an order or BPA. At a minimum, ordering activities should consider, if available, at least one small business, veteran-owned small business, service disabled veteran-owned small business, HUBZone small business, women-owned small business, or small disadvantaged business schedule contractor(s). GSA Advantage! and Schedules e-Library at <http://www.gsa.gov/fss> contain information on the small business representations of Schedule contractors.

(c) For orders exceeding the micro-purchase threshold, ordering activities should give preference to the items of small business concerns when two or more items at the same delivered price will satisfy the requirement.

8.405-6 Limited sources justification and approval.

(a) Orders placed under Federal Supply Schedules are exempt from the requirements in Part 6. However, an ordering activity must justify its action when restricting consideration—

(1) Of schedule contractors to fewer than required in 8.405-1 or 8.405-2; or

(2) To an item peculiar to one manufacturer (e.g., a particular brand name, product, or a feature of a product, peculiar to one manufacturer). A brand

name item, whether available on one or more schedule contracts, is an item peculiar to one manufacturer. Brand name specifications shall not be used unless the particular brand name, product, or feature is essential to the Government's requirements, and market research indicates other companies' similar products, or products lacking the particular feature, do not meet, or cannot be modified to meet, the agency's needs.

(b) Circumstances that may justify restriction cited in paragraph (a)(1) of this subsection include—

(1) Only one source is capable of responding due to the unique or specialized nature of the work;

(2) The new work is a logical follow-on to an original Federal Supply Schedule order provided that the original order was placed in accordance with the applicable Federal Supply Schedule ordering procedures. The original order must not have been previously issued under sole source or limited source procedures;

(3) An urgent and compelling need exists, and following the ordering procedures would result in unacceptable delays.

(c) Ordering activities shall procure such requirements only if the need to do so is justified in writing and approved at the levels specified in paragraphs (f) and (h) of this subsection.

(d) Except as provided in paragraph (e) of this subsection, when an order contains brand name specifications, the ordering activity shall post the following information along with the Request for Quotation (RFQ) to e-Buy (<http://www.ebuy.gsa.gov>):

(1) For proposed orders exceeding \$25,000, but not exceeding the simplified acquisition threshold, the documentation required by paragraph (f) of this subsection.

(2) For proposed orders exceeding the simplified acquisition threshold, the justification required by paragraph (g) of this subsection.

(e) The posting requirement of paragraph (d) of this subsection does not apply when—

(1) Disclosure would compromise the national security (e.g., would result in disclosure of classified information) or create other security risks. The fact
